

# UNIVERSITÀ DEGLI STUDI DI NAPOLI FEDERICO II

## ATTACHMENT A)

### PhD Programme in ARCHITECTURE

**Selection: assessment of the qualifications, research proposal evaluation and oral examination**

Duration: **3** years

Positions: No. **16**

Student grants: No. **12** (*1 reserved to applicants graduated abroad, such position when not granted will not be added to the ordinary grants (article 9 of the Call)*)

Positions without grant: No. **4**

Source of funding:  
**University Budget**

Place: Dipartimento di Architettura

Ph.D. Coordinator: Prof. Fabione Mangone

Webpage address, with information about the organization, research topics and educational activities of the PhD Program:

<http://diarc.unina.it/index.php/formazione-post-laurea/dottorato>

#### **Qualifications and research proposal:**

qualifications, research proposal (if required for the PhD programme you applying for), application form duly filled in must be sent digitally by and not later than **10th June 2020**, to [phdnafedericoii@unina.it](mailto:phdnafedericoii@unina.it)

#### **Timetable and place of the examinations:**

**results of assessment of the qualifications – notification:** 29/06/2020 - hr: 12:00 p.m.

Place: Department Website

<http://www.diarc.unina.it/index.php/formazione-postlaurea> ;

University website

<http://www.unina.it/didattica/post-laurea/dottorati-di-ricerca/bandi-di-ammissione>

**results of the assessment of the qualifications (applicants for reserved position) – notification:** 29/06/2020

Department Website

<http://www.diarc.unina.it/index.php/formazione-postlaurea>

University website

<http://www.unina.it/didattica/post-laurea/dottorati-di-ricerca/english-version>

**oral examination:** 09/07/2020 - H: 8:30

The oral exam will take place remotely

#### **Results of the oral examinations:**

place of notification:

Department website

## PhD Programme in PHYSICS

**Selection: Academic curriculum and qualifications assessment and oral examination**

**Selection for reserved positions: Assessment of the qualifications oral examination**

Duration: **3** years

Positions: n. **13**

Student Grants: n. **10** di cui n. **2 reserved to applicants not resident in Italy and graduated abroad ed 1 reserved to applicants graduated abroad, such position when not granted, will not be added to the ordinary grants (article 9 of the Call)**.

Positions without grant: n. **2**

Positions reserved for students with scholarship granted from a foreign Country: (Chile) n.1

*Source of funding:*

**n. 8 University Budget**

**n. 2 Dipartimento di Fisica**

Place: Dipartimento di Fisica "*Ettore Pancini*"

Ph.D. Coordinator: Prof. Vincenzo Canale

The selection procedure for **non-reserved** places provides for the evaluation of the academic curriculum, qualifications and an oral exam, with the following distribution of the score: 30 points for the academic curriculum, - 10 points for the qualifications, - 60 points for the oral exam.

The evaluation of the **university curriculum** will be based on the entire course of university-level studies useful for admission to the Ph.D. course, i.e. degree and master's degree or equivalent, or the only master's degree in the case of a single cycle course.

For each degree programme, the marks reported in the exams will be assessed, weighing them with the University credits of the corresponding courses and considering their positioning (percentile) in the statistical distribution of marks relative to the location where the course was attended and to the class

of degrees to which the course belongs, as can be inferred from the Diploma Supplement or other reliable sources.

The assessable **qualifications** and **the scores** related to them are: - qualification required for admission to the Ph.D. programme (master's degree or equivalent): up to a maximum of 6 points, based on the final mark obtained and its positioning in the statistical distribution of grades relative to the location and degrees class to which the qualification belongs, as well as the relevance of the qualification to the Ph.D. programme; for applicant who have not yet obtained the qualification at the time of selection, the weighted average of the marks reported in the exams will be used, where possible in relation to the corresponding statistical distribution; - scientific publications, awards, patents, scholarships, any letters of presentation and other qualifications: up to 4 points, of which a maximum of 3 for scientific publications and a maximum of 1 for further evaluable qualifications.

Applicants who have passed the two previous assessments with a total score of not less than 24/40 are admitted to the oral exam. The oral exam is passed only if the applicant obtains a score of at least 36/60.

**Webpage address, with information about the organization, research topics and educational activities of the PhD Program:**
