# Threat Hunting Use-Cases

### **Abstract**

This seminar will provide an introduction into current technologies and approaches for cybersecurity at Group-IB, and threat hunting use cases via the Threat Hunting Framework, a product from Group-IB. The seminar will feature a demonstration of the framework and practical examples of the threat hunting process.

**About the company:** *Group-IB is one of the leading providers of solutions aimed at detection and prevention of cyberattacks, online fraud, and IP protection. Group-IB Threat Intelligence & Attribution system was named one of the best in class by Gartner, Forrester, and IDC. Group-IB's technological leadership is built on the company's 18 years of experience in cybercrime investigations worldwide and 70,000 hours of incident response accumulated in our leading forensic laboratory and 24/7 CERT-GIB. Group-IB actively collaborates with international partners such as INTERPOL and Europol in the fight against cybercrime, and is an industry-leading cybersecurity solutions provider.*

*Recently, Group-IB partnered with the University of Naples Federico II to advance the university's cybersecurity branch by establishing a **Threat Hunting & Investigation Competence Centre**.*
